III. Guidance

A. The team will discuss the scope and projected schedule for U.S. FON operations in the Gulf of Sidra. This shall include:

-- FON operations will be in international waters in the Gulf of Sidra, south of the 32-30N closure line. There will be no penetration of Libyan waters within 12nm of the Libyan coast - which is the U.S. recognized limit. ~~(TS)~~

-- Preferred option is to use three CVBGs. ~~(TS)~~

-- Current planning envisions FON operations about March 23-29 after arrival of USS AMERICA CVBG. ~~(TS)~~

-- Depending upon regional developments, i.e., a new Libya/GUNT offensive in Chad, the FON operations might be moved up, but would only have two CVBGs available. ~~(TS)~~
